

KGU-KSC English Language Programme - Research Fair Presentations 2005

This year we have nine groups of students making presentations in English at the Research Fair. These students are now in their fourth and final semester of the English Language Programme at KSC. The Research Fair presentations are a chance for English Language Programme students to show off the language and academic speaking, research and presentation skills that they have learned over the last two years. This year we have an excellent variety of Policy and Media studies related presentation topics including; NEETS, Kyoto Protocol, Blogs, Fair Trade, Refugees, Food Additives and Deforestation.
